

# Solar Physics at Stanford University

## Seminars and Meetings

[Solar Physics Seminar](#)

[AKCS Colloquia](#), [Alternate ACKS page](#)

[Astronomy Program](#) -  
*see for talks This Week*

[Physics and Applied Physics](#)

[RadioScience Seminars](#)

[IAU Symposium No.223](#)

## Visitors

[Current / Future](#)

[Recent](#)

## Projects

[Solar Oscillations Investigation \(SOI\)](#)

Probing the interior of the Sun, using the [Michelson Doppler Imager \(MDI\)](#) on the [Solar and Heliospheric Observatory \(SOHO\)](#)

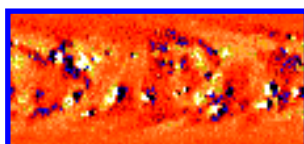

[Helioseismic and Magnetic Imager \(HMI\)](#)

HMI instrument for the [Solar Dynamics Observatory \(SDO\)](#) mission in the [Living With a Star](#) program.

[Wilcox Solar Observatory \(WSO\)](#)

Daily observations of large-scale magnetic fields. Operated since 1975.

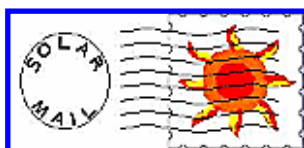

[Synoptic Sun](#)

Synoptic maps of the Sun from the interior to the corona

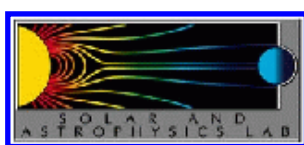

[SOLAR Center](#)

Our educational web site providing on-line activities to encourage and share the wonder of solar science exploration.

[SolarMail](#) | [Directory](#) |  
[Current SolarNews](#) | [Archive](#)

Electronic mail service and personal information database for Solar Physics. Provided on behalf of the [AAS-SPD](#)

[LMSAL collaborations](#)

Collaborations with the Lockheed-Martin Solar and Astrophysics Laboratory including [TRACE](#), [Solar-B](#) and [SDO-AIA](#)

[Solar MURI Project at UC Berkeley](#)

Berkeley home for Sun-Earth connections DoD MURI Project

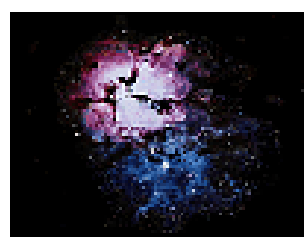

[CISM](#)  
[UCB Solar CISM page](#)

Boston Univ home for Center for Integrated Space Weather Modeling (CISM).

[VSO Stanford Home](#)  
[GSEC VSO Home](#)

The Virtual Solar Observatory

[Stanford Astronomy Program](#)  
[Astrophysics at Stanford](#)

Links to other astrophysics programs at Stanford

Observational and theoretical research on the physics of the sun is carried out at [Stanford University](#) in several research groups. This page links to the projects carried out by a group of scientists and supporting staff associated with the Center for Space Science and Astrophysics ([CSSA](#)) and the Hansen Experimental Physics Laboratories ([HEPL](#)), under the direction of Philip Scherrer (HEPL and the Department of [Physics](#)).

**Useful Information:** [Phones](#) | [Maps](#) | [SU Calendar](#)
